

About Us

Cody.ai is an AI code review organisation that works with U.S. tech companies. We don't work like MNCs; we hustle like Wall Street, scale like Silicon Valley, and pay like it too.

We offer equity (ESOPs), so you own a stake in the company. Grow with us, not just for us.

Role: Graduate Trainee - SDE 1

- Build and ship real-world AI/SaaS products alongside a fast-moving engineering team
 - Location → Chennai and Working hours → US timings (Night shifts IST)
 - This role would translate into a full-time role after completion of the University course
-

Who We Want

We're looking for:

- Builders who can turn ideas into production-ready code at startup speed
 - Engineers who thrive in chaos, move with urgency, and figure things out independently
 - Competitive learners who want 10x growth in skill, ownership, and impact
 - Operators who want to lead teams, own products, and grow ridiculously fast
-

Why Join

- Full-time Compensation: 11 LPA CTC (6L Fixed + 4L Variable + 1L ESOPs)
- Monthly Internship Stipend: Rs. 10,000
- Extremely fast growth: Opportunity to grow from an individual contributor to leading engineering initiatives within a year based on performance
- Global exposure: Work closely with US customers and engineering teams on real production problems
- High-impact work: Your code ships fast and directly influences product direction and customer experience

At Codity.ai, comfort zones kill. Hustlers win.
